Dear Stan:

I would like to take this opportunity to comment on some special help we received from your employee, Chuck Allgood.

Currently the KLC is in the process of conducting a corporate wide fundraiser for the Louisville Metro United Way. As part of that, each department was charged with developing some type of event. We in Security decided on a Jail-a-thon and we decided on using our conference room as the jail. Chuck graciously volunteered his artistic talent and resources to build us a jail door with key. When I walked in Wednesday and saw the finished product, I was amazed. Chuck obviously spent a considerable amount of time designing and building our door. Everyone who we arrested from Arch Gleason our President / CEO, on down the ladder marveled and commented on how great the door was. Chuck's contribution helped make our effort a total success.

On a more professional note, Chuck has always done an excellent job for us, starting with his employment with Pinkerton, through to the present with your company. Chuck is always very thorough and conscientious. He has a very friendly way about him and our employees feel safe when he's around. He exemplifies all the qualities we could want in a security officer.

So far I am very pleased with the way your folks have adapted to our needs and surroundings. I'm confident we made the right decision in engaging your company to handle our uniformed security.

Sincerely,

A handwritten signature in cursive script that reads "Bill".
